

## LADIES SHOE REPAIR

Ladies' Heel may be made of rubber, leather, or other material, serving as the thin layer that touches the ground and goes under the heel of the foot.

Ladies dowel heels

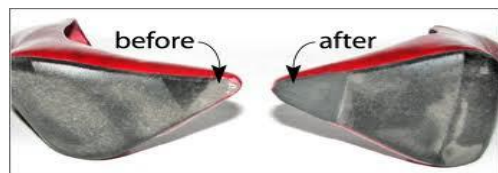

**\$15.00 pair**

Ladies reg toplifts

**\$18.00 pair (Medium Size)**

**\$22.00 pair (large size)**

Toe Pieces is an alternative to replacing the entire sole. A small portion of the front of the sole is replaced with the same material as the original sole.

**\$18.00 Pair**

Sole Guards/Protective Soles are thin, high quality rubber soles that go on top of an existing sole. Protective soles provide much better traction and greater longevity for the bottom of the shoe.

**\$28.00 pair**

## Christian Louboutin

Red sole Guards/Protective soles. Thickness – 1mm or 1.8mm

**\$45.00 pair**

Half Soles are made of leather or rubber, most often used as replacements for the original bottom of a ladies shoe. The bottom portion goes from the shank of the shoe to the toes, sparing the back portion of the sole that extends to the heel. **Half soles \$40.00 pair**

## MENS SHOE REPAIR

Rubber Heels come in various sizes and shapes, known to be longer lasting and less expensive than combination or leather heels.

**\$28.00 pair**

Combination Heel is a top-lift that is made of leather in combination with a rubber back. The rubber on the back of the heel provides better traction and wear.

**\$35.00 pair**

Loafer heels (3/4" height), Whole heels (7/8" height). Replaces heel base and heel tap

**\$35.00 pair**

Sole Guard or Protective Sole is a rubber layer placed on top of an existing men's sole. This provides better traction and longer wear.

**\$32.00 pair**

We offer 2 choices of leather: our **house leather** or **JR Leather**

**ASK FOR THE BEST!**

Oak-bark tanned leather sole from Joh.Rendenbach (JR) in Germany. Because of the tight grain of an oak-bark tanned leather soles, they wear longer and require more infrequent replacing. If you are looking to resole your shoes with the best leather sole available, then, without a question, go with the J.Rendenbach (JR) oak-bark tanned sole.

- Lasts at least twice as long, sometimes more.
- Highly water resistant from the oak bark tanage.
- No man made tanning agents that wash out in the rain like most others.
- No painted finish to hide blemishes.
- The hide part of the JR sole is cut from is only the best cut, no belly leather.

Half Soles, house leather or rubber, extend from the shank of the shoe through the toe and involves the replacement of the soles in that area.

**House ½ Leather \$45– JR ½ Leather \$65**

**House ½ Leather & Rubber Heels \$65 - JR ½ Leather & Rubber Heels \$90**

**House ½ Leather \$48.00 pair – JR ½ Leather \$68**

**House ½ Leather & Heel Combo \$75 – JR ½ Leather & Heel Combo \$95**

**House Full Leather \$95 – JR Full Leather \$125**

## ORTHOPEDIC SHOE BUILDUPS

Leg length differences are very common due to injuries, hip or knee surgeries, or congenital reasons. They can be easily accommodated however with an orthopedic build-up.

We offer Quality Correction Services that allows you to wear almost any shoe while still providing for your orthopedic needs.

What we do is split the sole at the bottom of any shoe of men, women, and children, add the build up to the specified size, taper at the toe, then reattach the original bottom of the shoe. This creates an aesthetically appealing look while alleviating pain in the foot, leg, hip, and back caused by the limb length discrepancy. In situations that the sole can't be split, we apply the buildup directly on the sole of the shoe and use a thin out soling material

1/2" Shoe lift

- Shoe Buildups
- Rocker Soles
- Wedges
- Buttrusses
- Leather Toe Slide
- Special requests modifications

**Up to 1/2" - \$65.00**

**Each additional 1/4" add \$10.00**

## ***Restore your old orthotics to new again!***

Orthotics are devices inserted into shoes to increase [comfort](#) and arch support. Depending on the person's lifestyle and the materials used to make the orthotics, the top cover can last 1 to 3 years or longer. Users may also need to replace custom-made orthotics when they no longer fit properly because of changes in foot size or shape.

### **Worn out orthotics, in any condition, can be restored to brand new again!**

We replace:

- Worn out top covers & bottom covers
- Shock absorbing padding (met pads, arch cushions)
- Rear foot & forefoot post (stabilizers)

**Full Length \$75.00 pair**

**¾ Length \$50.00 pair**

**We can make a second of orthotics from your existing pair.**

**Pair \$295.00**

**Each \$195.00**
